PROFILE

I am a **Frontend Developer** with a wealth of experience spanning over 2 years, specializing in the creation of dynamic, visual appealing and responsive web applications. As I progress on this professional journey, I have devoted myself to refining my skills through the execution of various personal projects, thereby demonstrating my proficiencies in contemporary web technologies.

Additionally, I have assumed the role of a web Instructor, imparting knowledge in frontend development and nurturing the coding capabilities of others. An ardent seeker of knowledge, I have actively pursued internships to garner practical industry insights and further enrich my expertise.

My Tech Stack: HTML, CSS, TailwindCSS, Bootstrap, Sass, Styled Components, JavaScript, ReactJs, React-Query (Tanstack), Redux, Supabase, Git.

I am open to learning new technologies and tools as required for the job, and I am eager to adapt and grow in line with the evolving needs of the role.
